The Manamater Store Public Importance

THIS is the third day of the Millinery Display. The collection of Fall Hats on view is the largest ever shown in an American store, but its size is

the women's shoes have lurned soles,—sewed to the upper leather without the intervention of an inner sole or welt. The shoes, therefore, are much more pliable and elastic. They fit closer, yet are much more comfortable. The trouble has been heretofore that the stitching would rip out, under wear. If these rip before the sole wears through to the stitching, we'll give you a new pair. \$3.50.

The men's shoes are intended for hard Winter service, but a handsomer shoe never was turned out. Made of hoarded calfskin, tan or black, with a sole such as you have never seen on anything but a custom made shoe. We guarantee the upper leathers of these shoes against cracking under wear for one year from time of purchase. A new pair, if a crack comes under these conditions. \$3.50. Numerous novelties
